... [t]ime wasting exercise when we can **utilize the time more effectively in subject areas which will actually secure us employment.** [Module X] isn't going to equip me for industry. (Anonymous student feedback, 2017/18).

As an art & design student I believe there's a reason why **I didn't choose to learn a more academic subject,** as I'm very much more hands on and practical with my learning (Anonymous student feedback, 2017/18).

**GET**

# CONSTELLATION

- Assignment with variable outcomes to evidence **development of cognitive sub skills required of interdisciplinary understanding:**

Written Paper;

Visual Essay;

Practice + Academic Text;

Research Poster;

Podcast;

Entrepreneurship Research Proposal;

Technical Report;

(amongst others)

- **Reflective Learning Journal (PDP)**  
**(connections between modules).**

# FIELD

- Outcomes chosen by students to evidence **development of practical subskills of interdisciplinary understanding.**
- Group Research Presentation (viva)
- Teamworking audit.
- **Reflective Learning Journal (PDP)**  
**(connections between modules).**

## Flexibility and Choice: Assessment

CARDIFF SCHOOL

LEVEL 4

LEVEL 5

LEVEL 6

Flexibility in Design of the Year

“Constellation, Field and Subject are a great mix and have definitely **prepared me for the world of work in my own research and in the commercial design industry**, whereby working in a multi-disciplinary team is now the norm and is something I feel comfortable and even get excited about as a result. I take this transferable skill into anything I do.”

BA (Hons) Product Design (Third Year)

“I recommend working with other students from other subjects as **it’s an eye opener** to the way we think about our own work.”

BA (Hons) Textiles, Year Two

“I’ve been introduced to **new ways of thinking and tackling problems** and I’ve built life long friendships. It has helped me develop skills such as communicating effectively, negotiating with others, sorting misunderstandings and public speaking, all of **which will help me immensely in industry**.

Don’t settle for boring, there is always a way for you to **think outside of the box** and still be able to apply your specialism.”

BA Graphic Communication, Year Two
